

Splash Pad Private Rental Policy for Inclement Weather

Should inclement weather be a factor prior to your Splash Pad private rental, you have the option to reschedule your event for another available date, or cancel your event. **Cancelations must be made at least 48 hours prior to your event date to receive a full refund. Unfortunately, there are no exceptions to this rule, so please consider the weather forecast carefully.**

Notification to **reschedule** a 6:00 PM private rental must be made no later than 4:00 PM on the day of your event; notification for 9:00 AM private rentals must be made no later than 4:00 PM the day before your event.

To reschedule or cancel your Splash Pad private rental, please contact the Environmental Discovery Center at Lynches River County Park at (843) 389-0550 (Tues-Sat: 9:00 AM-5:00 PM and Sundays: 1:00 PM-5:00 PM). You may also call the Splash Pad at (843) 389-2785.

Inclement Weather Policy

Staff will follow the "30 minute rule" recommended by the National Lightning Safety Institute and the National Weather Service when inclement weather occurs. When lightning/thunder is estimated to be within 6-8 miles (and/or can be heard by staff members), staff will evacuate people to safe areas, away from the Splash Pad. Activities will resume 30 minutes after the last observed lightning or thunder.
